A number of specified service trades or businesses do not qualify for the deduction, subject to the above											

"Beginning in 2018, owners of pass-through entities are taxed on business income at their individual income tax rates but may claim a 20% deduction of their share of the business income—even if they elect to use the standard deduction instead of itemizing. A number of "specified service trades or businesses" do not qualify for the deduction, subject to the above thresholds on qualified business income. (The deduction may be limited or eliminated where taxable income is above the thresholds, depending on type of business, owner's compensation, and depreciable business property.)
